

Course: Fire Safety

This is a basic awareness program for workplace environments that includes prevention techniques as well as information on how to use a fire extinguisher

The fire safety course consists of four units including:

Unit 1- Basic Workplace Fire Safety Awareness

Unit 2- Fire Safety and Prevention

Unit 3- Types and Uses of Fire Extinguishers

Unit 4- Using a Fire Extinguisher and Basic Fire Fighting Principles

Course Objectives

This course is designed to give the participant, the knowledge in fire safety and prevention, fighting a fire by recognizing user and equipment limitations, the fundamentals of fires, types of fire extinguishers, and the proper handling of the fire extinguisher.

Evaluation Process

At the end of each module, there is a quiz that each course participant must challenge and successfully complete with a passing grade before continuing to the next content module.

Course Duration

The course is self paced so course duration will depend on the individual participant and their prior knowledge base with the course subject matter. On average, the course will take between 2-3 hours to complete

Who Should Take the Course?

If you are exposed to fire or potential fire hazards in your work place taking this course will better help you understand the potential uses of the fire extinguisher and the limitations in using them.
